

Socionext to Showcase Portfolio of Next-Generation Products and Solutions for 4K TV Markets, Entertainment, Data transmissions, Prosumers at Computex in Taipei June 2-6

Full Range of New 4K Solutions for ICT industry

Taipei, Taiwan May 29, 2015 --- Socionext Inc. will showcase its comprehensive set of high-performance SoCs and software solutions at the Computex in Taipei June 2-6.

Socionext, a new innovative enterprise founded on March 1, will display its brand new 4K TV Solutions for global market and new established products that feature high compression and decompression capabilities, high-speed video processing, and large-volume data-transfer capabilities. Socionext will be located at the Nangang Hall booth N0108.

Socionext will show a group of products for the 4K solution. They include

For TV solution:

- 4K TV solutions for global market
- Add-on 4K solution and Single chip 4K solution for expand your 4K model lineups .Supporting HDMI2.0/HDCP2.2 and 4K HEVC,VP9 decode

For Entertainment:

- a new HV1 chip for up-converting 2K content to high-quality 4K content with its “super resolution” technology. The HV1 requires no outside memory and achieves low latency under 0.1 frame delay. It supports multiple output interfaces of HDMI 2.0 with HDCP 2.2, LVDS and V-by-One. The HV1 is suitable for multiple applications that utilize 2K content in 4K eras.

For Data transmission:

- a next generation super high-speed WiGig module that can transfer up to 2.5Gbps and capable of 4K video streaming over the air. It is the world’s smallest module integrating an RF chip, baseband chip and antenna, with support for the USB 3.0 interface. The module can be used in all applications requiring huge data transfer wirelessly.

For Prosumers:

- 4K HEVC p60 10-bit decoder chip supporting HDMI 2.0 with HDCP 2.2 output port. The chip also supports decoding of 4K VP9 p60, transcoding to H.264 or MPEG2 up to 1080 30p x 4ch simultaneously. This highly-integrated SoC for networked AV applications provides all processing requirements for next generation media player products and transcoder products.
