Expansion of Renewable Energy Adoption Shin-Yokohama Head Office Switches to 100% Renewable Electricity

[Yokohama, Japan, December 10, 2025] --- As part of its efforts to reduce environmental impact and realize a sustainable society, Socionext Inc. has transitioned to 100% renewable electricity for its Shin-Yokohama headquarters as of November 2025.

As a result, electricity consumption from renewable energy sources under Scope2 (Group consolidated basis) is expected to reach 18.6% in fiscal year 2025 (Results for the previous fiscal year: 9.4%) and approximately 30% in fiscal year 2026.

Socionext will continue to actively promote measures against climate change, including the expanded introduction of renewable energy, and achieve carbon neutrality under Scope 1 and 2 by 2050.

[Initiatives for Renewable Energy Adoption]

- April 2024: Kyoto site – 35% renewable electricity introduced
- April 2024: Nagoya site – 25% renewable electricity introduced
- April 2024: Two European sites – 100% renewable electricity introduced
- April 2024: Kanto Area Data Center – 100% renewable electricity introduced
- April 2025: Sendai site – 100% renewable electricity introduced
- November 2025: Shin-Yokohama headquarters – 100% renewable electricity introduced

Driven by its mission, "Together with our global partners, we bring innovation to everyone, everywhere," Socionext considers sustainability a core management priority. Through its business activities, our group is actively addressing environmental and social challenges such as climate change, while engaging with stakeholders to help build a more sustainable society.
