

Socionext to Exhibit at IFSEC International 2018

Advanced Image Signal Processors Deliver Latest Solutions for Video Monitoring, Surveillance and Security Camera Solutions

Yokohama, June 8, 2018 --- Socionext Inc., a leading provider of SoC-based imaging solutions, will feature its latest technologies and systems powered by the company's Milbeaut series of image signal processors for video monitoring, surveillance and security applications at the annual IFSEC International Exhibition, ExCel London from June 19 to 21, booth E527.

Socionext's lineup of ultra-compact, low-power technology and solutions at the exhibition include the following:

- **High Quality Imaging under Low Light Conditions**

The latest technologies such as 3DNR (Three-Dimensional Noise Reduction) and WDR (Wide Dynamic Range) enable the capture of high quality images even under very low light conditions.

- **Four-Camera Panorama Stitching**

The advanced three-dimensional image stitching algorithm synthesizes the data from four camera inputs and generates seamless, high-definition, low-noise panoramic images.

- **4K 30x Zoom Camera**

A high-definition block camera delivering 4K / 60fps video and capable of 30x zoom, provided by E-globaledge Corporation.

- **Moving Object Detection, ROI (Region of Interest) and LPR (License Plate Recognition)**

With the Milbeaut processor performing advanced processing such as moving object detection and ROI, it allows security camera system builders to develop a solution that filters vast amounts of captured images and extract only necessary information. License Plate Recognition, which enhances the effectiveness of ROI performance, will also be demonstrated.

About Socionext Inc.

Socionext is a new, innovative enterprise that designs, develops and delivers System-on-Chip products to customers worldwide. The company is focused on imaging, networking, computing and other dynamic technologies that drive today's leading-edge applications. Socionext combines world-class expertise, experience, and an extensive IP portfolio to provide exceptional solutions and ensure a better quality of experience for customers. Founded in 2015, Socionext Inc. is headquartered in Yokohama, and has offices in Japan, Asia, United States and Europe to lead its product development and sales activities.
